

What's On @ Gilston

a Glance

Curriculum Overview

English

Students will engage with spoken, written and multimodal texts which feature characters, clear events, beginnings and endings.

Students will engage in reading, viewing and comprehend texts including simple decodable texts, picture books and various types of stories and poems. Students will explore how characters and events are presented and language used to describe them.

Mathematics

Students will look for and make connections between number names, numerals and quantities to at least 20 using mathematical reasoning in active learning experiences. Students will explore situations, sparked by curiosity, using physical and virtual material to represent, partition and solve everyday problems. Students will learn to recognise repetition in pattern sequences and apply this to creatively build repeating patterns in a range of contexts.

Science

Students will examine everyday objects and investigate what they are made of. They will work out which materials are suitable for a particular purpose and explain their findings.

HASS

In 'My Special Places, They observe the familiar features of places and represent these features and their location on pictorial maps and models. They reflect on their learning to suggest ways they can care for a familiar place. Students relate stories about their past and share and compare observations about familiar places.

Specialists

"Music in our New World"

Prep students will continue to study a range of different music as stimulus for their own music making and responding. They will study a range of instruments and develop singing and aural skills.

Health- I AM SAFE. (continued from Term 3)

In this unit, students identify actions and protective behaviours that keep them safe and healthy in situations where they may encounter medicines, poisons, water and fires.

Physical Education (Movement) - WHO WANTS TO PLAY?

In this unit, students will perform fundamental movement skills to music. They will explore the elements of movement and describe how their body responds to movement in a performance combining the elements of movement.
