Activity Risks and Insurance

The activity outlined above carries an inherent risk of physical injury occurring. Please note that the Department of Education, Training and Employment does not have personal accident insurance cover for students. If your child is injured as a result of an accident or incident, all costs associated with the injury, including medical costs are the responsibility of the parent/carer. Some incidental medical costs may be covered by Medicare. If you have private health insurance, some costs may also be covered by your provider. Any other costs must be covered by parents/carers. It is up to all parents/carers to decide what types and what level of private insurance they wish to arrange to cover their child. Please take this into consideration in deciding whether or not to allow your child to participate in this activity.

To Parents / Guardians

Life Education is providing the TALK ABOUT IT program focussing on sexual health and relationships. The TALK ABOUT IT program includes information on reproductive health incorporating physical and emotional changes associated with puberty, relationships and the concept of self. It has been developed in response to the need for increased and consistent education in the areas of sexuality, identity & relationships, and aligns with the Australian Health and Physical Education curriculum.

TALK ABOUT IT is designed to help students understand and cope with this important phase of their lives, in order to develop a positive attitude towards their own sexuality. While providing them with information on how to look after themselves during this stage of their development, Life Education recognises that the physical components of sexual health are strongly linked to the emotional and social aspects.

The Talk About It Program

Year 5:

- Session 1: Evolving Friendships
- Session 2: Welcome to Puberty

Year 6:

- Session 1: Navigating Relationships
- Session 2: Surviving Puberty
- Session 3: Discovering Identity

About Life Education

Life Education has been facilitating quality primary and secondary school health programs for over 35 years. These programs are designed to motivate and empower young people to make smart life choices for a healthy future.

The Life Education vision is for “Generations of healthy young Australians living to their full potential”. This vision is underpinned by the belief that all children deserve to lead safe and healthy lives.

All programs offered look to equip children with the knowledge needed throughout their lives, enabling them to make informed decisions.
