TERM
4
2020

CURRICULUM OVERVIEW

ENGLISH: This Term students will continue reading and analysing a quest novel. They will also analyse characteristic ideas and persuasive techniques in advertisements and how they impact the target audience.

MATHEMATICS: This term students will apply a variety of mathematical concepts in real-life, lifelike and purely mathematical situations through number and place value, multiple measurement concepts including time and data.

SCIENCE: In this unit students will use games to investigate and demonstrate the direction of forces and the effect of contact and non-contact forces on objects.

HASS: Students will examine the purpose of laws and distinguish between rules and laws. They will explore diversity of different groups and consider how this shapes their personal identity.

SPECIALISTS

MUSIC: Revision of all known rhythmic elements; Reading and writing notes on the treble staff; Expressive elements and form; Singing; Recorder; Responding to music of different styles and cultures.

STEM: Design - Students will investigate forces and the properties of materials and how they affect the behaviour of a product or system. They will learn different shaping and joining techniques of materials. Using this knowledge they will design and create a working pinball machine which meets a design brief.

HEALTH AND PHYSICAL EDUCATION: Students will demonstrate the fundamental movement skills of throwing and catching and apply movement concepts and strategies to solve challenges in games. They will apply strategies for working cooperatively and apply rules fairly. In health, students will continue to examine different sources of health information and how to interpret them with regard to accuracy. They identify health messages and the methods they use to influence decisions.

LOTE:

- Transferring vocab to new situations
- Listening Comprehension
